Children Are the Flowers

Anonymous

Children are the flowers of the future.
If they are to blossom in the springtime of
their lives, the soil in which they grow must
be richly nourished.

'CHILDREN ARE THE FLOWERS' PLEDGE

I pledge to mindfully support a dynamic public education system which sustains a consistent course offering **all children** free access to a quality education seated in democracy, based in facts and authentic historical accuracy which ignites curiosity and sets the tone for development of positive self esteem, empathy, and healthy, inquisitive minds; creating a model for the world that clearly, mindfully sets a course for lifelong learning and recognition of my responsibilities as a global steward.
